

Aged Care can't wait

because
we care
Quality care for older Australians

Petition to The Honourable Tony Windsor MP, Member For New England

This Petition of the Federal Electorate of New England states that:

Aged care is in crisis and quality of care for vulnerable older Australians must be a priority. We need more funding in Budget 2012 to protect older Australians, guarantee nurses remain in aged care and close the wages gap.

Your petitioners request that you stand up for older Australians and:

1. Make Budget 2012 the aged care budget;
2. Ensure quality of care by guaranteeing a minimum number of nurses to residents on every shift;
3. Ensure that Budget 2012 commits the funds to close the wages gap and guarantee nurses remain in aged care.
